UNITED STATES MEDICAL LICENSING EXAMINATION®

STEP 1 SCORE REPORT

This score report is provided for the use of the examinee.

Third party users of USMLE information are advised to rely solely on official USMLE transcripts.

Wesalo, Joshua Scott

USMLE ID: 5-357-917-3

Test Date: April 28, 2016

The USMLE is a single examination program consisting of three Steps designed to assess an examinee’s understanding of and ability to apply concepts and principles that are important in health and disease and that constitute the basis of safe and effective patient care. Step 1 is designed to assess whether an examinee understands and can apply important concepts of the sciences basic to the practice of medicine, with special emphasis on principles and mechanisms underlying health, disease, and modes of therapy. The inclusion of Step 1 in the USMLE sequence is intended to ensure mastery of not only the sciences underlying the safe and competent practice of medicine in the present, but also the scientific principles required for maintenance of competence through lifelong learning. Results of the examination are reported to medical licensing authorities in the United States and its territories for use in granting an initial license to practice medicine. This score[§] represents your result for the administration of Step 1 on the test date shown above.

PASS	This result is based on the minimum passing score recommended by USMLE for Step 1. Individual licensing authorities may accept the USMLE-recommended pass/fail result or may establish a different passing score for their own jurisdictions.
-------------	---

257	This score is determined by your overall performance on Step 1. For recent administrations, the mean and standard deviation for first-time examinees from U.S. and Canadian medical schools are approximately 230 and 20, respectively, with most scores falling between 140 and 260. A score of 192 is set by USMLE to pass Step 1. The standard error of measurement (SEM) [‡] for this scale is five points.
------------	--

[§]Effective April 1, 2013, test results are reported on a three-digit scale only. Test results reported as passing represent an exam score of 75 or higher on a two-digit scoring scale.

[‡]Your score is influenced both by your general understanding of the basic biomedical sciences and the specific set of items selected for this Step 1 examination. The Standard Error of Measurement (SEM) provides an index of the variation in scores that would be expected to occur if an examinee were tested repeatedly using different sets of items covering similar content.

INFORMATION PROVIDED FOR EXAMINEE USE ONLY

The Performance Profile below is provided solely for the benefit of the examinee.
 These profiles are developed as self-assessment tools for examinees only and will not be reported or verified to any third party.

The above Performance Profile is provided to aid in self-assessment. The shaded area defines a borderline level of performance for each content area; borderline performance is comparable to a HIGH FAIL/LOW PASS on the total test.

Performance bands indicate areas of relative strength and weakness. Some bands are wider than others. The width of a performance band reflects the precision of measurement: narrower bands indicate greater precision. The band width for a given content area is the same for all examinees. An asterisk indicates that your performance band extends beyond the displayed portion of the scale. Small differences in the location of bands should not be over-interpreted. If two bands overlap, performance in the associated areas should be interpreted as similar. Because Step 1 is designed to be integrative, many items contribute to more than one content area. As a consequence, caution should be used when interpreting differences in performance across content areas.

This profile should not be compared to those from other Step 1 administrations.

Additional information concerning the topics covered in each content area can be found in the *USMLE Step 1 Content Description and Sample Test Materials*.

Notes

¹Test scores, like other measurements, are not perfectly precise. The confidence bands that are shown for the Total Scores above mark the ranges in which your true scores probably lie. To obtain the confidence band for each section score, subtract one point from and add one point to the score (or, in the case of the Writing Sample, subtract and add one letter).

²The percentile ranks of scores are the percentages of test takers who received the same scores or lower scores than you did.

TRANSCRIPT KEY

ACCREDITATION

Franklin & Marshall College is accredited by the Middle States Association of Schools and Colleges as a degree granting institution at the baccalaureate level.

CALENDAR AND CREDIT SYSTEM

Franklin & Marshall College operates on a semester basis and uses a course credit system. Thirty-two course credits are required for graduation. A typical course is assigned one course credit which is the equivalent of four semester hours of credit.

Franklin & Marshall College operated an Evening Division Program until 1991. Course credits earned in this division are represented with semester hours, the typical course being assigned 3 semester hours.

NUMBERING SYSTEM

Prior to Fall semester, 1988, a one or two digit course number was utilized with no system-wide logic. Beginning with the Fall semester of 1988, a 3 digit system was put into place with 100-299 representing lower level undergraduate courses and 300-499 representing upper level undergraduate courses.

TRANSFER CREDIT

Course credits accepted in transfer from other institutions are listed under appropriate headings. The course numbers and titles reflect Franklin & Marshall equivalents. If no grade is noted on the transcript for a transfer course, a grade of C- or better was required for credit to be awarded. Transcripts of work completed at

other institutions must be received directly from the other institution.

GRADING SYSTEM

Grade	Quality Points
A	4.0

F	0.0
P (Pass)	0.0
NP (No Pass)	0.0
W	Withdrew
I	Incomplete
NG	No Grad Submitted
NC	Non-Credit Course

REPEAT POLICY

A student may repeat a course with a D+, D, D-, F or "NP" grade. Prior to Fall 1993, both grades were calculated into the grade point average. If a course was repeated during or after Fall 1993, only the second grade is calculated into the grade point average. In both cases, only one course credit may be earned. As of Fall 2006, a course may only be repeated at the institution at which the course was originally taken,
