

MSTP Postdoctoral Fellowship for students who graduate in December

Application Deadline: July 1

Decision Date: July 30

Six months before graduating, the MSTP student and proposed University of Pittsburgh mentor together to create a one-page postdoctoral training plan. This plan, including deliverables, is submitted to the MSTP office for approval. Students with approved training plans are eligible for a 50% stipend subsidy from the Dean and the other 50% covered by the mentor for 5 months. **The mentor and Dean Stipend financial commitment is at the appropriate level for the departmental Postdoctoral Associate.**

The content of the training plan:

Name of Trainee:

Name of Mentor:

Dates of training:

How will time be spent and what will be learned during the proposed fellowship?

What are the deliverables (i.e., what will you accomplish and how will it be assessed)?

How does training contribute to future career goals?

Attach trainee and mentor NIH biosketch

Please note that you must complete all MD requirements and pass both your Step 2 CK and CS exams by December 31st of your last year before starting your postdoc position.
